The Car History Search Buyer's Guide aims to help you understand the details of your CarFacts Report and identify the key things to look out for when buying a used car. This way, you can ensure that you have all the information you need to make a safe and informed purchase.

Here are some of the terms you may find in your CarFacts Report and what they mean for you as a buyer:

Vehicle reported as 'stolen':

If your vehicle is reported as 'stolen', this can mean the car has been stolen either currently or previously in its life. For more information, contact the state or territory law enforcement listed on the PPSR certificate included in your report.

Vehicle reported as 'written off':

A vehicle that has been 'written off' has been in an accident or suffered some form of damage. In some cases, cars which have been written off are unable to be re-registered and are declared as 'statutory write-offs'. In other cases, they can be repaired and reregistered, provided they pass the necessary safety inspections – these are known as 'repairable' or 'economic' write-offs.

It is important to remember that just because a car has been written off, does not necessarily mean you should not buy it. It does mean that you should do some thorough checks to ensure that it is safe – and is owned by the person selling it. Your state or territory road authority will be able to assist with any specific questions you have about the 'write-off' information provided in your CarFacts Report.

To keep you safe when buying a second hand vehicle, we recommend following our buyer's checklist which will ensure you have covered all the important steps:

- ✓ Enlist a mechanic to carry out an independent inspection
- ✓ Check the vehicle's log book for its history of odometer readings and when it was bought, sold and serviced
- ✓ Inspect the overall condition of the vehicle – look out for any signs of wear and tear on the seatbelts, carpets and/or the steering wheel. If there are signs of heavy use on a low-mileage vehicle, it may be an indication of odometer tampering so do not be afraid to investigate further
- ✓ Check the build year to ensure the vehicle is being advertised correctly. The build year can be found on the build plaque in the engine bay

The NEVDIS data is intended to assist users with checking that the VIN or Chassis Number they entered, along with information they have about the vehicle from other sources, is accurate and to provide users with any data held on NEVDIS about a vehicle's stolen or written off status.

State and territory road agencies are the source of NEVDIS data and the primary point of contact for enquiries, errors and corrections.
